

STAKEFORGE

THE GAMIFIED STAKING PLATFORM

Stake. Play. Earn. Rise.

A next-generation staking ecosystem where your loyalty is rewarded with points, games, NFTs, and real value.

WHY STAKEFORGE?

DUAL EARNING

Earn your project's native rewards AND StakeForge points simultaneously. Double the value from every stake.

GAMIFIED ARCADE

Spend points in our arcade — play games, compete on leaderboards, win NFTs, tokens, and exclusive prizes.

TRANSPARENT FEES

Project owners set their own fees. A flat \$0.12 USDC platform fee per action keeps it fair and simple.

SECURITY FIRST

5-layer security architecture. Emergency unlock capability. Admin-controlled safety measures at every level.

HOW IT WORKS

01

CONNECT WALLET

Link your MetaMask, Coinbase, or any EVM wallet. Solana coming soon.

02

CHOOSE A POOL

Browse verified NFT project staking pools. Soft, hard, or flexible lock options.

03

STAKE & EARN

Start earning project rewards + StakeForge points from day one.

04

PLAY & WIN

Use points in the arcade. Spin the wheel. Climb leaderboards. Win prizes.

FOR PROJECT OWNERS

Your own dashboard to manage your community:

- Set your own staking fees and reward structures
- Monitor your community's staking activity in real-time
- Distribute rewards, NFTs, and tokens to your holders
- Built-in reward calculator for distribution planning
- Full control — except the platform's \$0.12 admin fee
- Flexible payment plans with upfront or gradual options

FUTURE TOKENS?

Points accumulate with every action — staking, playing, referring friends.

Use them in the arcade, spin the prize wheel, or hold them.

Who knows? They could become tokens someday. Early adopters benefit the most.
