

STAKEFORGE

The Gamified Staking Platform

Stake. Earn. Play. Dominate.

Partnering with NFT Projects for Next-Level Community Engagement

WHY STAKEFORGE?

Gamified Staking

Your holders don't just stake — they play, compete, and earn. Points, badges, leaderboards, and an arcade keep engagement sky-high.

Dual Earning

Holders earn YOUR project rewards PLUS StakeForge platform rewards. Double the incentive to stay staked.

5-Layer Security

Smart contract audits, RBAC, RLS policies, wallet verification, and real-time monitoring protect every asset.

Prize Wheel & Airdrops

Admin-controlled prize wheels, NFT giveaways, and potential token airdrops give your community reasons to keep coming back.

HOW IT WORKS

01

YOU ONBOARD

We set up your custom staking pools, configure reward tokens, and integrate your project into the platform.

02

HOLDERS STAKE

Your community connects their wallets and stakes through an intuitive, beautiful interface with soft, hard, or flexible staking modes.

03

EVERYONE EARNS

Holders earn your rewards + platform points. They climb leaderboards, unlock badges, and play arcade games.

04

YOU MANAGE

Your own dashboard to monitor your community, distribute rewards, and track engagement — all in real-time.

WHAT YOUR HOLDERS GET

Points System

Earn points for every action — staking, referrals, daily logins. Points may convert to tokens.

Arcade Games

Spend points in the arcade. Win NFTs, tokens, and exclusive rewards.

Prize Wheel

Spin-to-win with admin-curated prizes. NFTs, ETH, tokens — you decide.

Leaderboard

Competitive rankings drive engagement. Top stakers earn bonus rewards.

Badge System

Achievement badges for milestones. Show off your rank and commitment.

Potential Airdrops

Platform points could become tokens. Early stakers benefit most.

TRANSPARENT PRICING

PLATFORM FEE

~10%

Negotiable based on project size and commitment. Paid upfront or gradually.

Non-payment = suspension. Rug = blacklist.

YOUR CONTROL

- Set your own staking fees
- Configure reward distributions
- Manage your community dashboard
- Control prize wheels & giveaways
- Full analytics and reporting

All fees and terms subject to change. See Terms of Service for details.
